After registering regularly check your email and you will receive an email like this

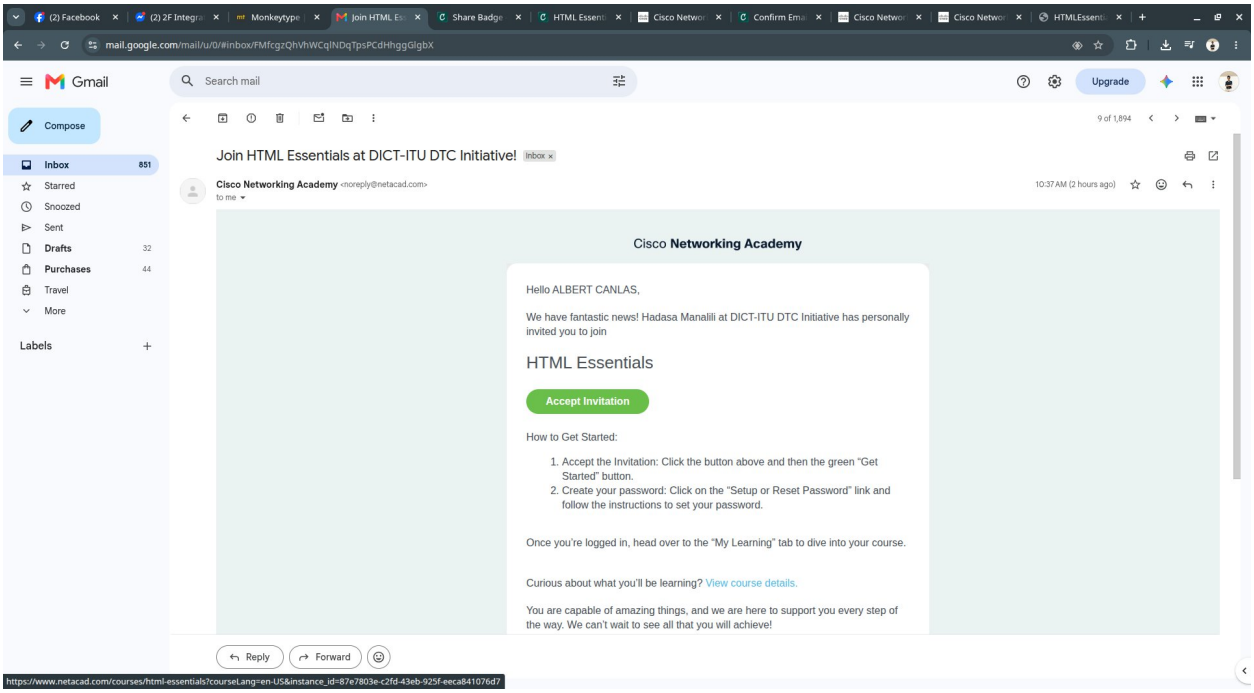

Follow the instruction on how to get started. Click the accept invitation and you will be redirected here in

In here you will click setup and reset password to create your password

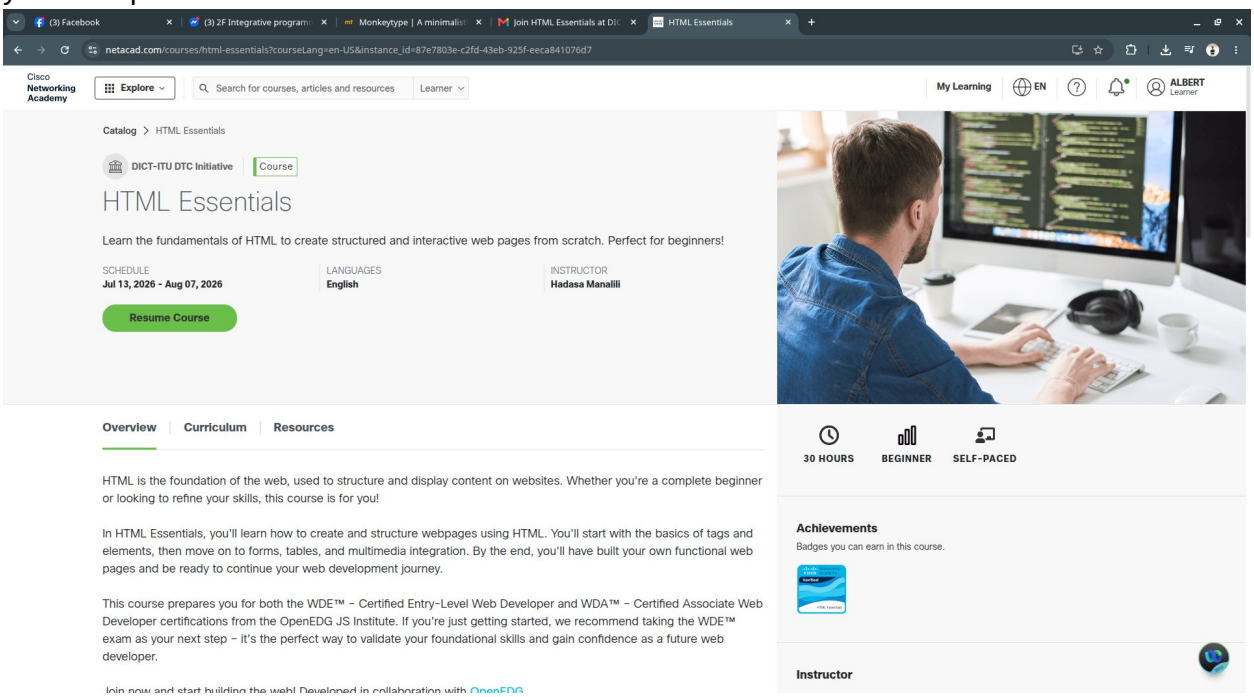

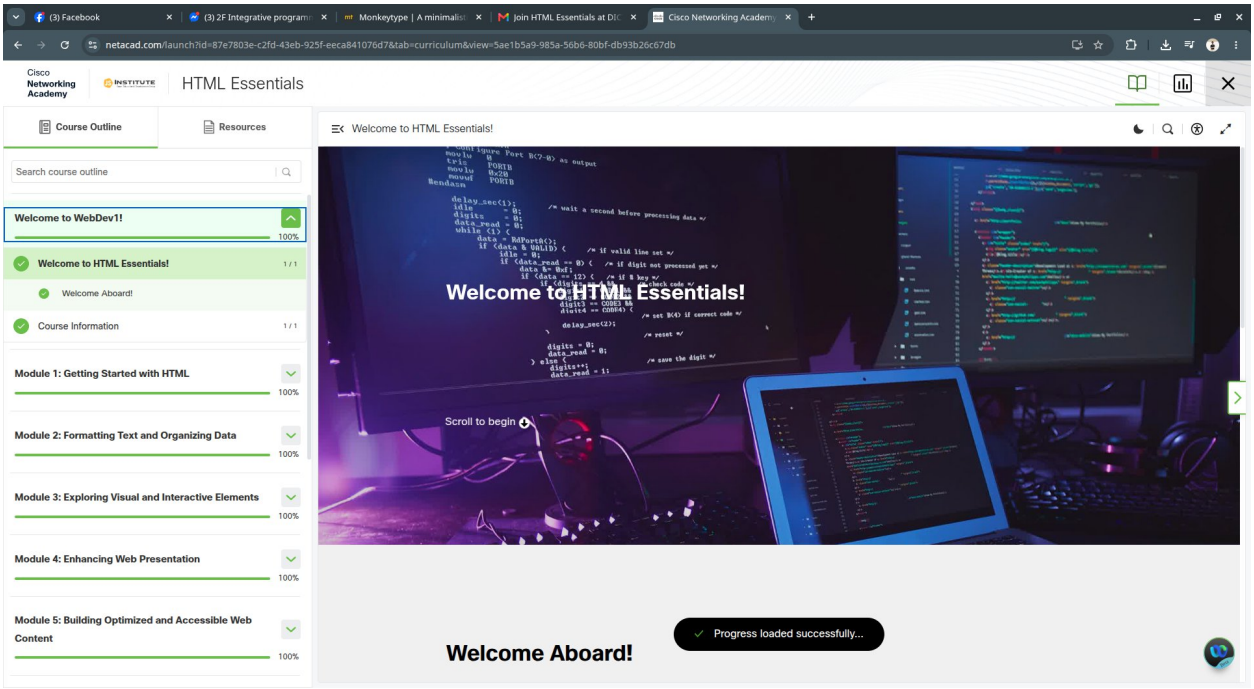

This is what you will see if you click the setup or reset your password. After creating your password, you should go to the login page and login your account.

After login in you should go back to your email and click the accept invitation again. And you will be redirected to the course html essentials page. Here you will start the course and finish it in

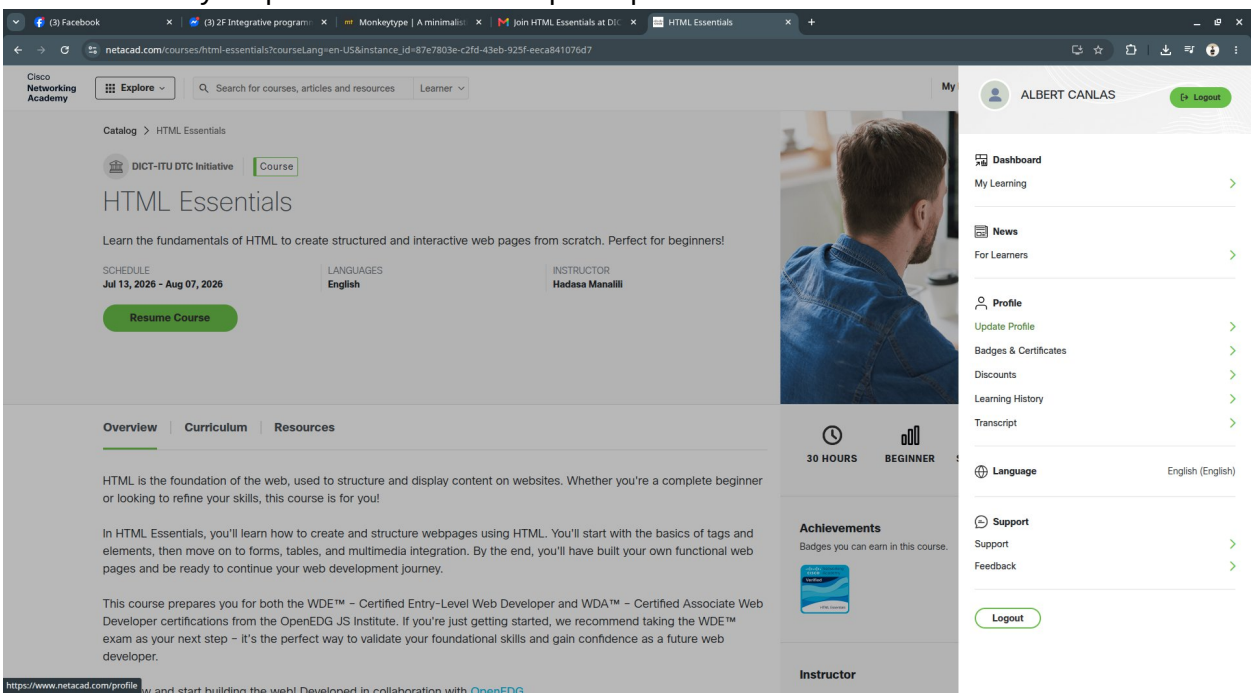

your own pace.

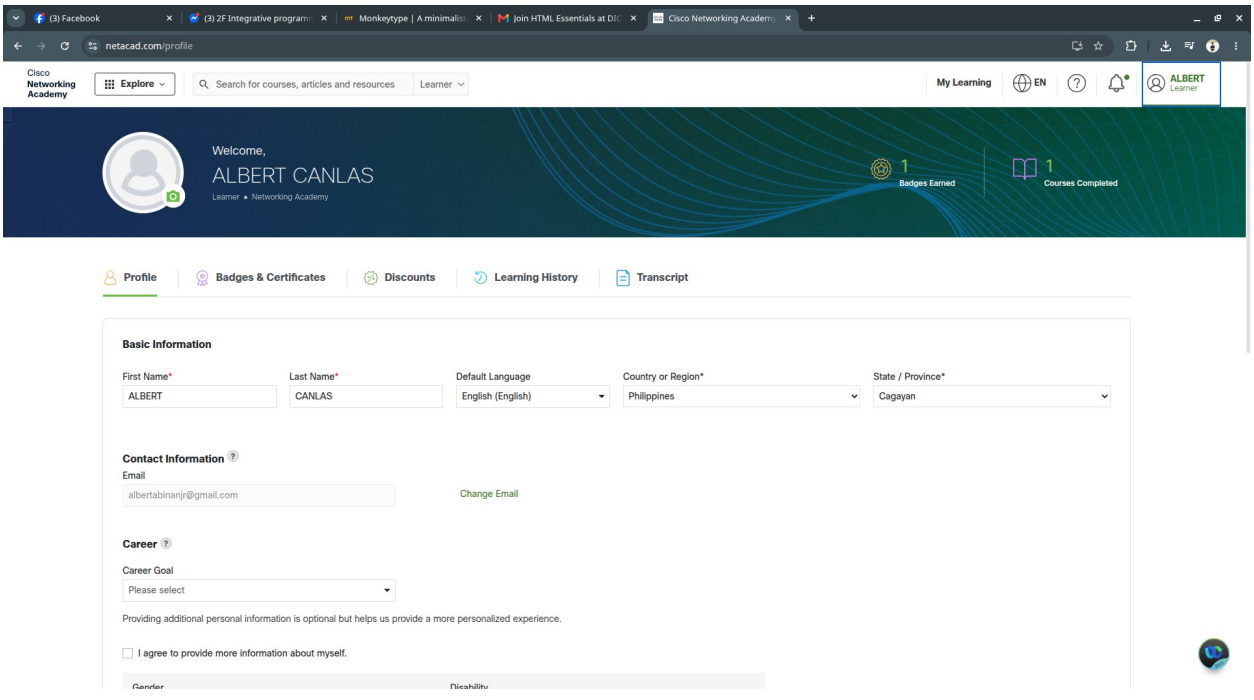

after finishing the course you will verify your email address. Go back to the home page of the

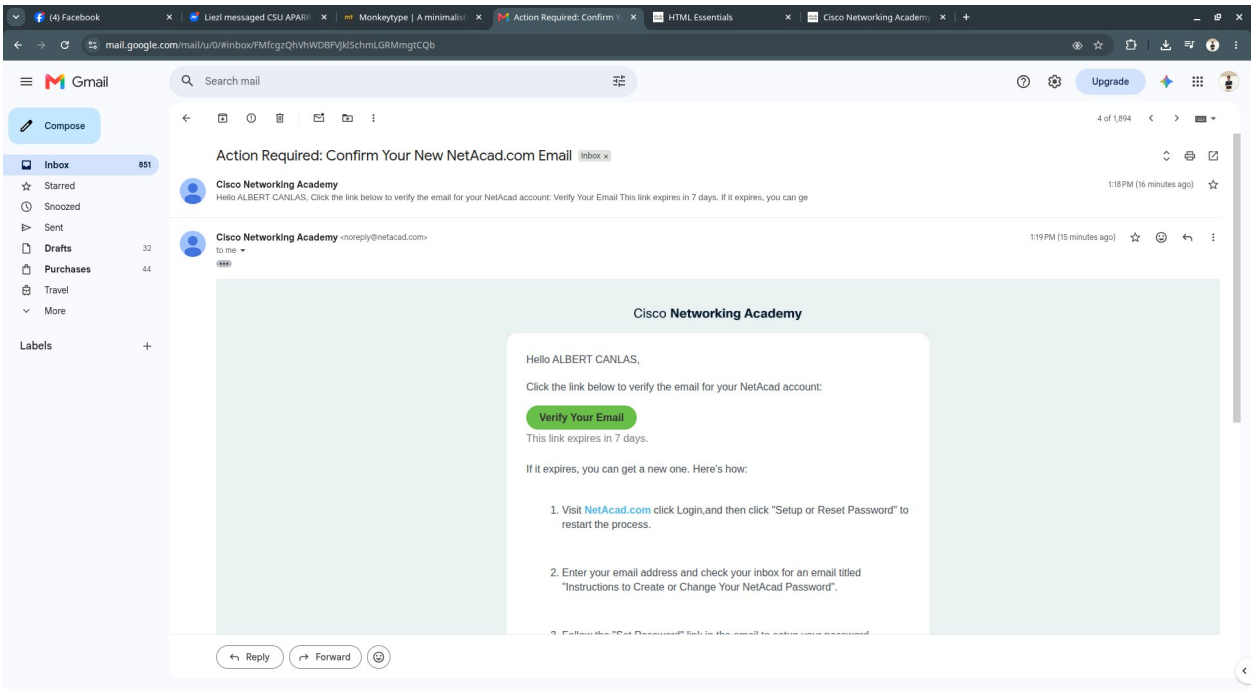

cisco and click your profile then click the update profile

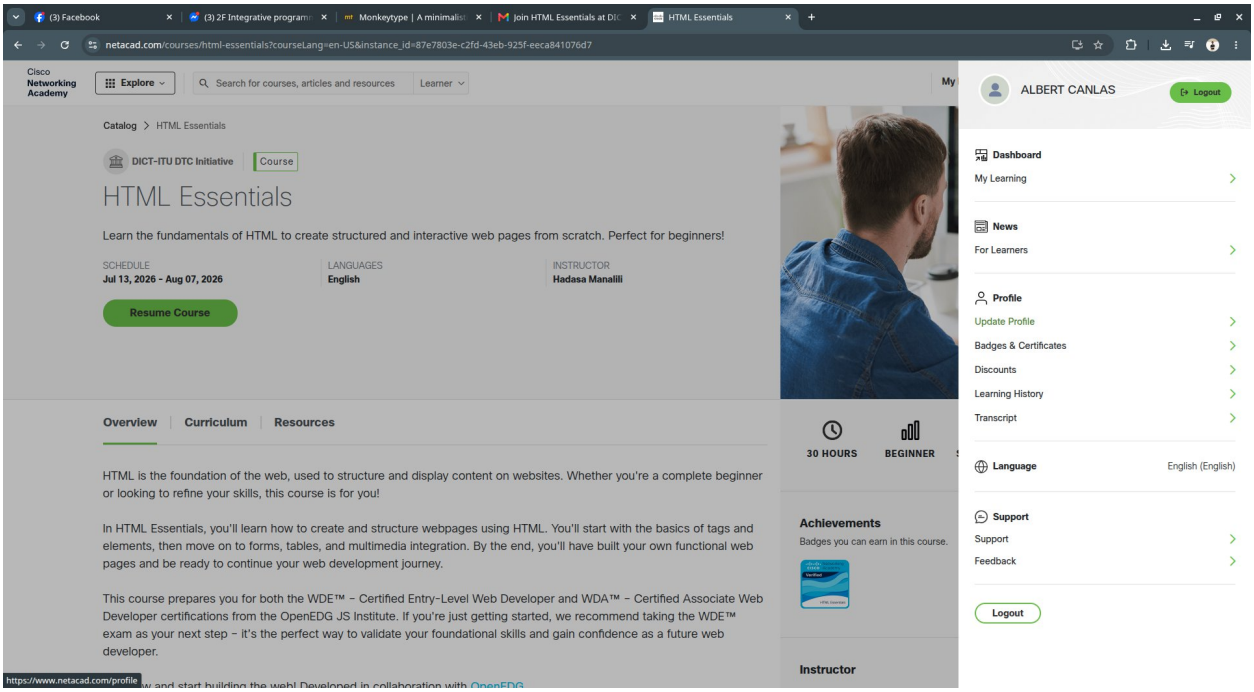

And you will be redirected to your personal info and in here if you haven't verified your email you will see a verify email account button. Click that

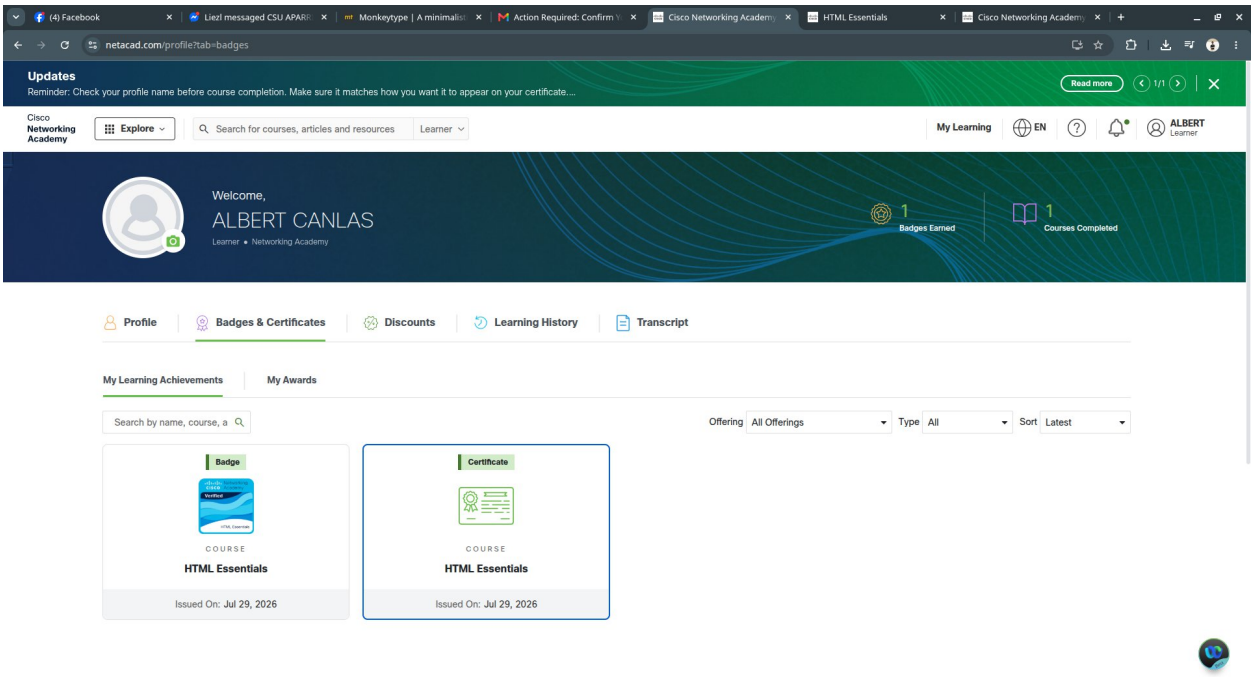

Then you will receive an email to verify your account

After verifying your account go back to the cisco page and click the badges & certificates. In here you will see and be able to download your badge and certificate
